The figure consists of five scatter plots arranged horizontally, each showing the difference in position between two different BPMs. The plots are titled: **diff_bpm1X**, **diff_bpm4aY**, **diff_bpm4eX**, **diff_bpm4eY**, and **diff_bpm12X**. Each plot has a y-axis ranging from -1500 to 1500 and an x-axis ranging from -40 to 60. The data points are densely clustered around the origin (0,0), indicating that the differences in position are generally small.
