The figure consists of five scatter plots arranged horizontally, each showing the difference between two measurement methods for a specific coordinate. The y-axis for all plots is labeled 'diff_bpm1X' or 'diff_bpm1Y' and ranges from -10000 to 10000. The x-axis for each plot is labeled with the difference between the two methods, such as 'diff_bpm4aX' or 'diff_bpm12X'. The plots show a dense cloud of points centered around zero, indicating high agreement between the methods.
