asym_atr2

The figure is a scatter plot titled "asym_atr2". The x-axis is labeled "asym" and has major tick marks at -0.04, -0.02, 0, 0.02, 0.04, and 0.06. The y-axis is labeled "atr2" and has major tick marks at -0.04, -0.02, 0, 0.02, 0.04, and 0.06. The data points are colored according to a scale on the right, ranging from 0 (dark blue) to 100 (yellow). The points form a strong positive linear correlation, starting from approximately (-0.04, -0.04) and ending near (0.05, 0.05). There is a slight deviation from the line at the top right, with a few points at higher 'atr2' values for a given 'asym' value.
