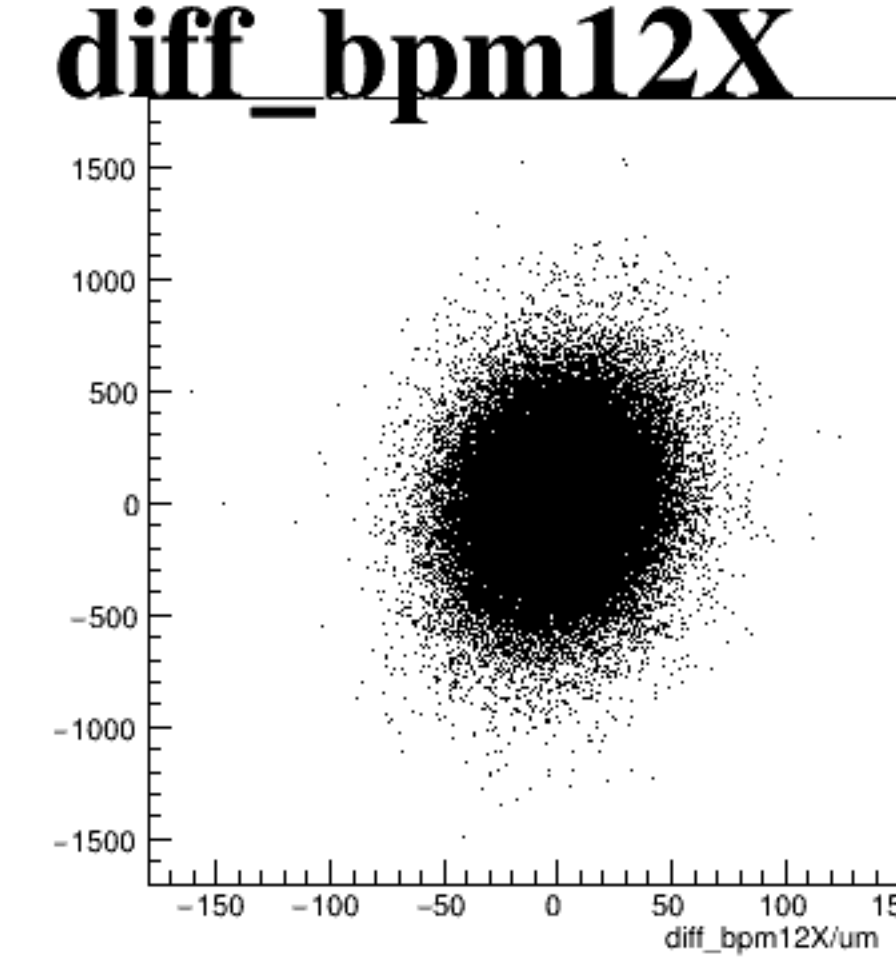

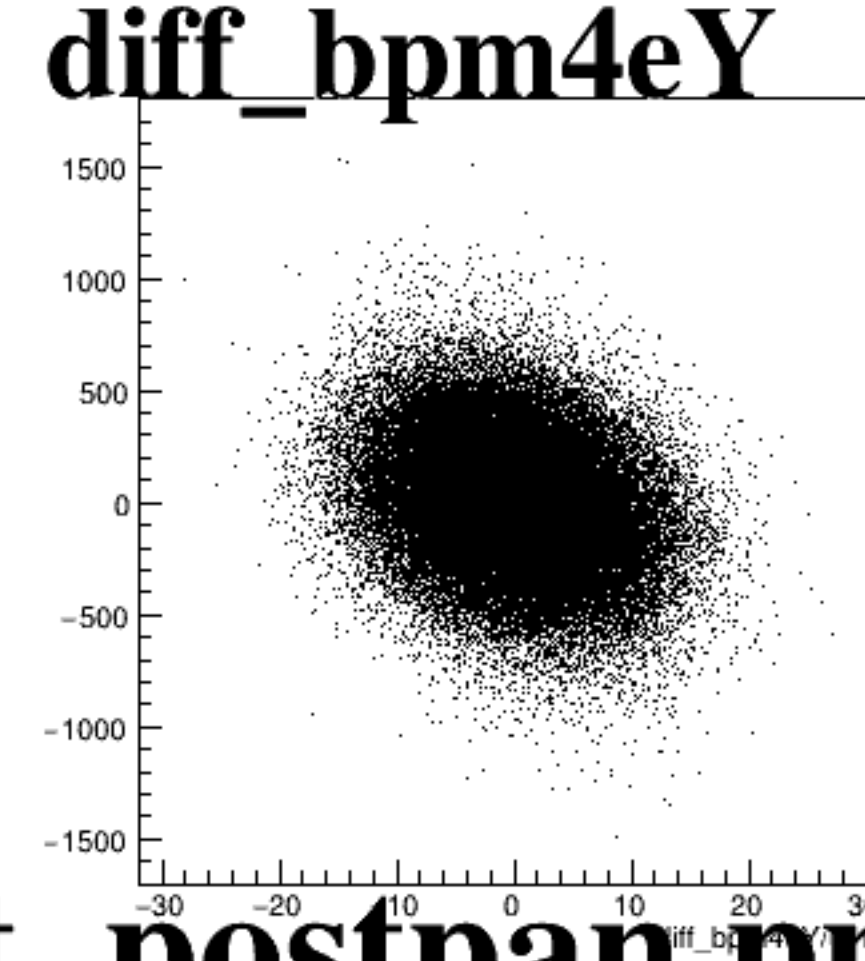

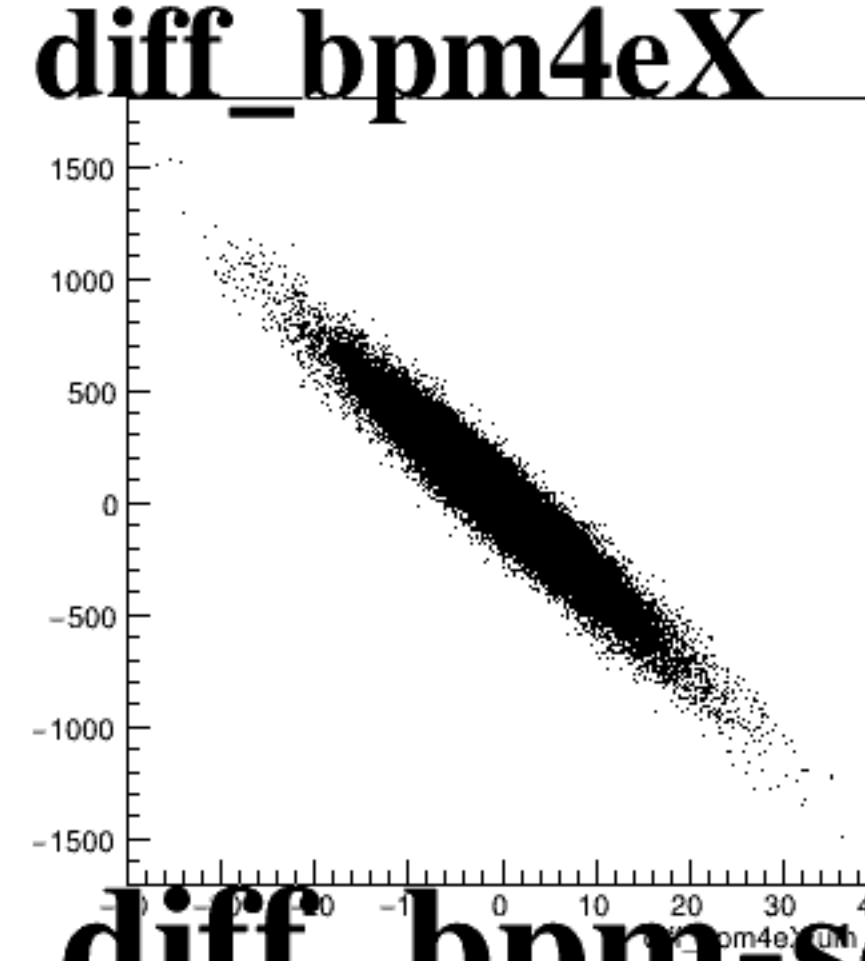

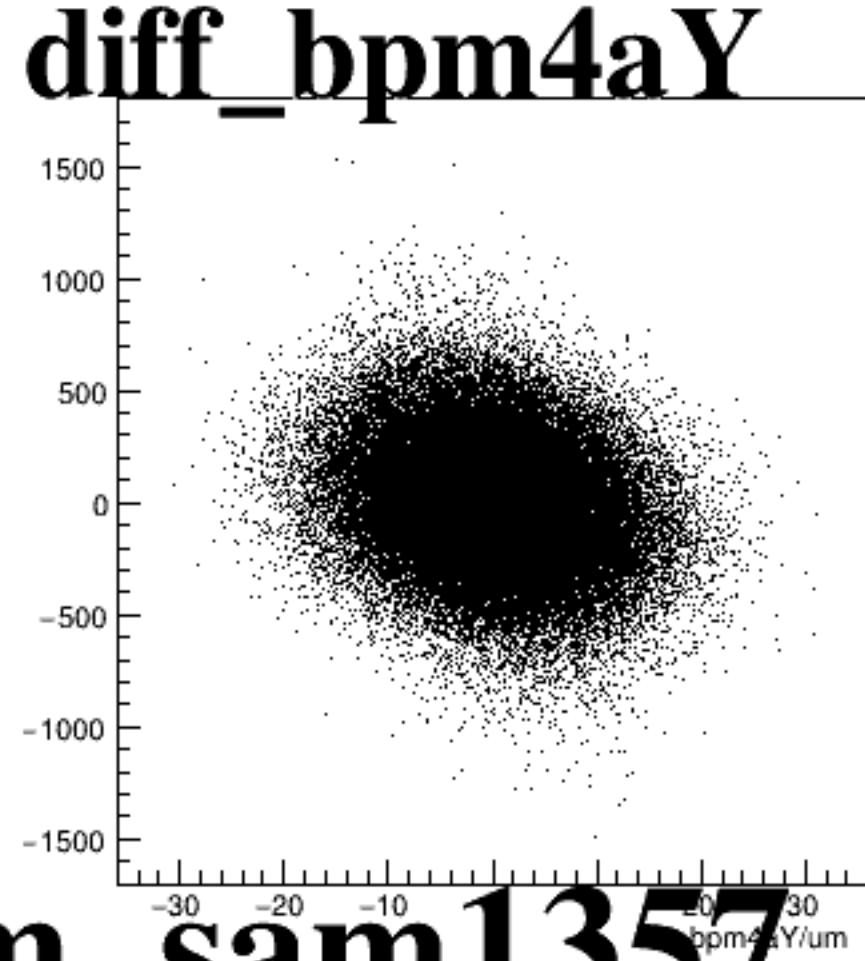

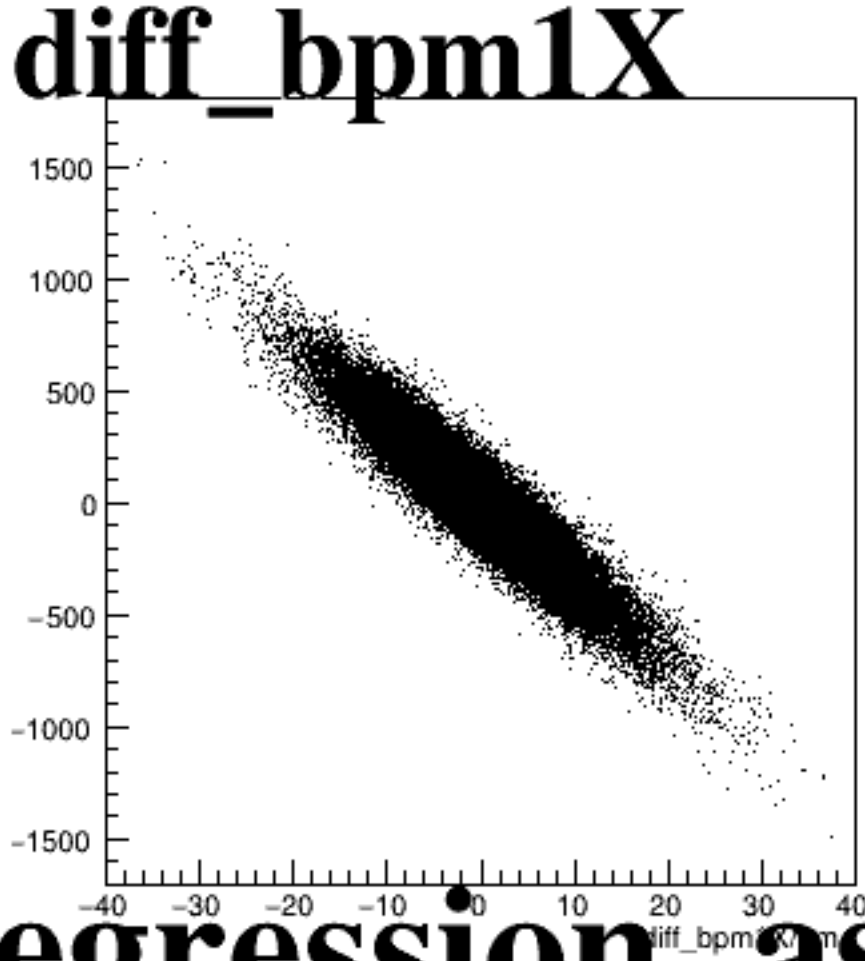

Figure 1 displays five scatter plots showing the distribution of differences between various regression methods and the ground truth. The plots are titled: **diff_bpm1X**, **diff_bpm4aY**, **diff_bpm4eX**, **diff_bpm4eY**, and **diff_bpm12X**. Each plot has 'diff_bpm' on the x-axis and 'diff_bpm' on the y-axis. The distributions are centered around (0,0) and show increasing spread from left to right.
