asym_sam8

A scatter plot showing the relationship between two variables, both labeled 'asym_sam8'. The plot displays a dense cloud of points forming a strong positive linear correlation. The x-axis ranges from -0.001 to 0.0015, and the y-axis ranges from -0.01 to 0.01. The data points are tightly clustered along a diagonal line passing through the origin.

A scatter plot showing the relationship between two variables, both labeled 'asym_sam8'. The plot displays a dense, elliptical cloud of points centered around the origin (0,0). The x-axis ranges from -0.001 to 0.0015, and the y-axis ranges from -0.01 to 0.015. The points are most concentrated in the center, forming a dark, dense region that tapers off towards the edges of the plot area.

A scatter plot showing the relationship between `asy8` (y-axis) and `asym_sam8` (x-axis). The plot is titled `asy8` in large black font. The x-axis is labeled `asym_sam8` and ranges from -0.001 to 0.0015. The y-axis ranges from -0.004 to 0.004. The data points are densely clustered around the origin (0,0), forming an elongated, elliptical shape oriented along the diagonal line $y = x$. The density of points is highest near the center and decreases as they move away from the origin.

A scatter plot titled 'asym_sam8' showing the relationship between two variables, both labeled 'asym_sam8'. The plot displays a perfect linear relationship, with data points forming a straight line passing through the origin (0,0). The axes range from -0.001 to 0.0015, with major ticks every 0.0005 units. The line is solid black, and the data points are small black dots.
