The figure is a scatter plot titled "asym\_dsl". The x-axis is labeled "asym" and the y-axis is labeled "dsl". Both axes have a range from -0.0015 to 0.0015, with major tick marks at intervals of 0.0005. A diagonal line of data points runs from the bottom-left to the top-right. The points are colored according to a scale from 0 to 90, with a color bar on the right side of the plot. The color scale ranges from dark blue (0) to yellow (90). The points are most densely packed along the diagonal line, with a slight increase in density towards the top-right corner.
