The figure is a scatter plot titled "asym_sam1". The x-axis is labeled "asym_sam1" and the y-axis is labeled "asym_sam1". Both axes range from -0.0015 to 0.0015, with major tick marks at intervals of 0.0005. The plot shows a dense collection of data points forming a diagonal line from the bottom-left to the top-right, indicating a strong positive linear correlation. The data points are colored based on a scale from 0 to 60, with a color bar on the right side of the plot. The color scale ranges from dark blue (0) to yellow (60), with intermediate colors representing values in between. The points are most concentrated along the diagonal line, with some scatter visible, particularly at higher values.
