The figure displays five scatter plots, each representing the difference in BPM (diff_bpm) for a specific beam parameter. The plots are arranged horizontally. Each plot has a y-axis labeled 'diff_bpm' and an x-axis labeled 'diff_bpm'. The data points are densely clustered around the origin (0,0), indicating a high level of agreement between the two methods being compared. The beam parameters are: diff_bpm1X, diff_bpm4aY, diff_bpm4eX, diff_bpm4eY, and diff_bpm12X.
