A scatter plot showing the relationship between two variables, both labeled 'asy6'. The plot is a 1:1 line, indicating perfect agreement between the two measurements. The x-axis and y-axis both range from -0.01 to 0.01, with major ticks every 0.005 units. The data points are densely packed along the diagonal line, showing a strong positive correlation.

A scatter plot showing the relationship between two variables, both labeled 'asy6'. The plot is a dense, elongated cloud of points, indicating a strong positive correlation. The x-axis ranges from -0.01 to 0.01, and the y-axis ranges from -0.04 to 0.02. The title of the plot is 'asy6'.

A scatter plot showing the relationship between two variables, both labeled 'asym_sam2'. The x-axis ranges from -0.02 to 0.02, and the y-axis ranges from -0.01 to 0.01. The data points form a dense, elongated cloud along the diagonal line y = x, indicating a strong positive correlation. The title 'asym_sam2' is displayed in a large, bold, black font at the top left of the plot area.

A scatter plot showing the relationship between two variables, both labeled 'asym_sam4'. The plot displays a dense, elongated elliptical cloud of points, indicating a strong positive correlation. The x-axis ranges from -0.04 to 0.02, and the y-axis ranges from -0.01 to 0.01. The data points are concentrated in a central region, with the ellipse oriented diagonally from the bottom-left to the top-right.

A scatter plot showing the relationship between two variables, both labeled 'asym_sam6'. The plot features a solid diagonal line representing the identity line (y=x). Data points are plotted as small black dots, showing a very strong positive linear correlation, as they are tightly clustered along the diagonal line. The axes range from -0.01 to 0.01, with major tick marks at intervals of 0.005.

A scatter plot showing the relationship between two variables, both labeled 'asym_sam8'. The plot displays a dense cloud of points forming a strong positive linear trend. The x-axis ranges from approximately -0.0025 to 0.0025, and the y-axis ranges from approximately -0.01 to 0.01. The data points are most concentrated along the diagonal line where y = x.
