The figure is a 2D histogram titled "asym_dsr". The x-axis is labeled "asym" and ranges from -0.0015 to 0.0015. The y-axis is labeled "dsr" and ranges from -0.006 to 0.008. The plot shows a dense cluster of points centered around (0, 0) with a color scale on the right ranging from 0 to 60. The color scale indicates the frequency of points, with yellow representing higher frequencies (up to 60) and blue representing lower frequencies (down to 0). The distribution is roughly circular but elongated along the x-axis.
