**asym_sam8**

A heatmap titled 'asym_sam7' showing the asymptotic covariance matrix. The x-axis and y-axis are both labeled 'asym sam7' and range from -0.003 to 0.004. The color scale on the right indicates values from 0 (dark blue) to 300 (yellow). The matrix is symmetric and shows a strong positive correlation along the diagonal, with values increasing towards the center (0,0).

The figure is a scatter plot titled "asym_sam7". The x-axis is labeled "asym sam7" and ranges from -0.003 to 0.004. The y-axis is labeled "asym" and ranges from -0.003 to 0.004. The data points are colored according to a scale from 0 to 600, with 0 being dark blue and 600 being yellow. The points form a strong positive linear correlation, following a diagonal line from the bottom-left to the top-right. The color of the points increases as they move away from the origin along this diagonal.
