asym_sam7

A scatter plot titled "asym_sam1" showing a dense cloud of points centered around (0,0). The x-axis is labeled "asym_sam1" and ranges from -0.0015 to 0.002. The y-axis ranges from -0.006 to 0.008.

A scatter plot showing the relationship between two variables, both labeled 'asym_sam1'. The x-axis and y-axis both range from -0.0015 to 0.002. The plot displays a dense, roughly elliptical cloud of points centered around (0, 0), indicating a positive correlation between the two measurements.

A scatter plot showing the relationship between two variables, both labeled 'asym_sam3'. The plot is a square with axes ranging from -0.008 to 0.008. The data points are densely clustered in the center, forming a roughly circular cloud around the origin (0,0). The density of points decreases as they move away from the center towards the edges of the plot area.

Scatter plot showing the relationship between **asym_sam3** (Y-axis) and **asym_correlati3** (X-axis). The plot displays a dense cloud of points, indicating a strong positive correlation. The X-axis ranges from -0.006 to 0.008, and the Y-axis ranges from -0.01 to 0.01.

A scatter plot showing the relationship between two variables, both labeled 'asym_sam5'. The plot displays a dense, elliptical cloud of points centered around the origin (0,0). The axes range from -0.008 to 0.008, with major tick marks every 0.002 units. The data points are most concentrated in the central region, forming a roughly circular shape with a slight horizontal elongation.

asym_sam5

asym_sam5

A scatter plot showing the relationship between two variables, both labeled 'asym_sam7'. The plot displays a dense, elongated elliptical cloud of points, indicating a strong positive correlation. The axes range from approximately -0.01 to 0.01 on the x-axis and -0.006 to 0.008 on the y-axis. The data points are most concentrated along the diagonal line where the two variables are equal.
