asym_sam7

A scatter plot titled "asym_sam7" showing the relationship between two variables, "asym" and "sam7". The plot displays a strong positive linear correlation, with data points tightly clustered along a diagonal line extending from the bottom-left to the top-right. The x-axis is labeled "asym" and the y-axis is labeled "sam7", both ranging from -0.06 to 0.06. The axes have major tick marks every 0.01 units, with minor tick marks every 0.002 units. The data points are represented by small black dots, forming a dense, slightly noisy line that passes through the origin (0,0).
