The figure consists of five scatter plots arranged horizontally, each showing the difference between two models for a specific parameter. The y-axis for all plots is labeled 'diff' and ranges from -10000 to 10000. The x-axis for all plots is labeled 'bpm' and ranges from -80 to 80. The plots are titled: 'diff_bpm4aX', 'diff_bpm4aY', 'diff_bpm4eX', 'diff_bpm4eY', and 'diff_bpm12X'. Each plot shows a dense cloud of points centered around zero, indicating good agreement between the models.
