asym_sam1

A scatter plot titled "asym_sam3". The x-axis is labeled "asym_sam3" and has major tick marks at -0.1, -0.05, 0, 0.05, and 0.1. The y-axis has major tick marks at -0.004, -0.002, 0, 0.002, and 0.004. The plot contains a large number of small black dots forming a dense, roughly circular cloud centered at the origin (0,0). The density of points is highest in the center and decreases towards the edges of the cloud.

A scatter plot titled "asym_sam3". The x-axis is labeled "asym_sam3" and has major tick marks at -0.1, -0.05, 0, 0.05, and 0.1. The y-axis has major tick marks at -0.006, -0.004, -0.002, 0, 0.002, 0.004, and 0.006. The plot contains a large number of small black dots representing data points, which are most densely clustered around the origin (0,0) and form a roughly elliptical shape elongated along the x-axis.

asym_sam5

A scatter plot showing the relationship between two variables, both labeled 'asym_sam5'. The plot is a 1:1 identity line, indicating perfect agreement. The data points are tightly clustered along the diagonal line, suggesting high precision and reliability of the measurements. The axes range from -0.006 to 0.006 on the x-axis and -0.004 to 0.004 on the y-axis.

asym_sam5

A scatter plot showing the relationship between two variables, both labeled 'asym_sam5'. The plot is a dense cloud of points centered around the origin (0,0). The x-axis ranges from -0.006 to 0.006 with major ticks every 0.002. The y-axis ranges from -0.1 to 0.1 with major ticks every 0.05. The points are most concentrated in the center, forming a roughly circular shape with some elongation along the diagonal.

A scatter plot titled "asym_sam7" in a large, bold, black font at the top left. The plot shows a dense, roughly circular cloud of black points centered at the origin (0,0). The x-axis is labeled "asym_sam7" at the bottom right, and the y-axis has no label. Both axes range from -0.03 to 0.03, with major tick marks and labels at -0.03, -0.02, -0.01, 0, 0.01, 0.02, and 0.03. The density of points is highest in the center and decreases towards the edges of the plot.
