The plot shows a perfect linear relationship between the two variables. The data points are distributed evenly along the diagonal line, indicating that the two measurements are identical for all subjects in the sample.

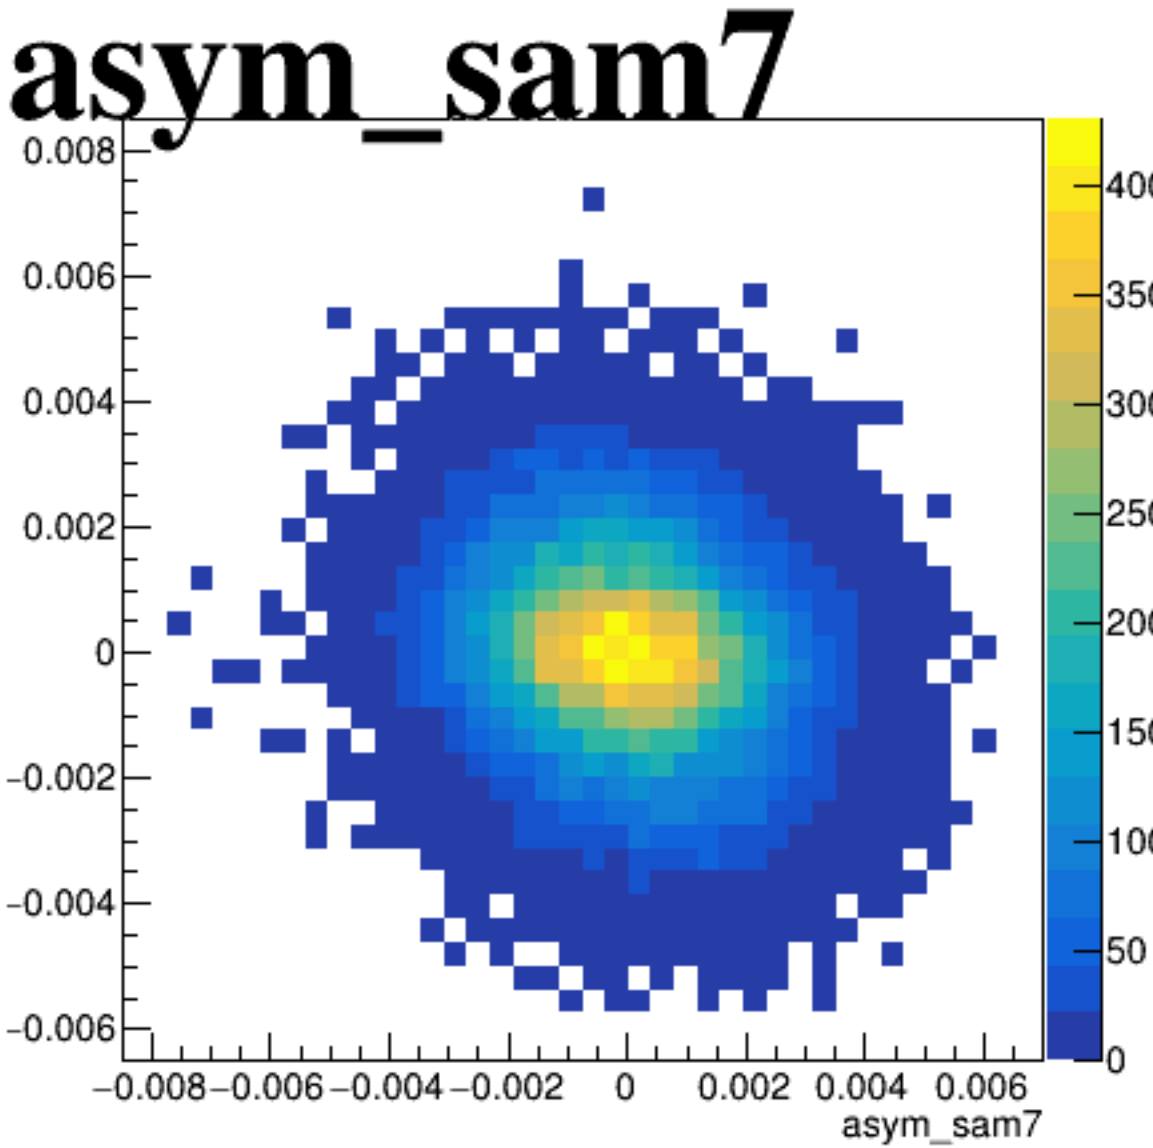

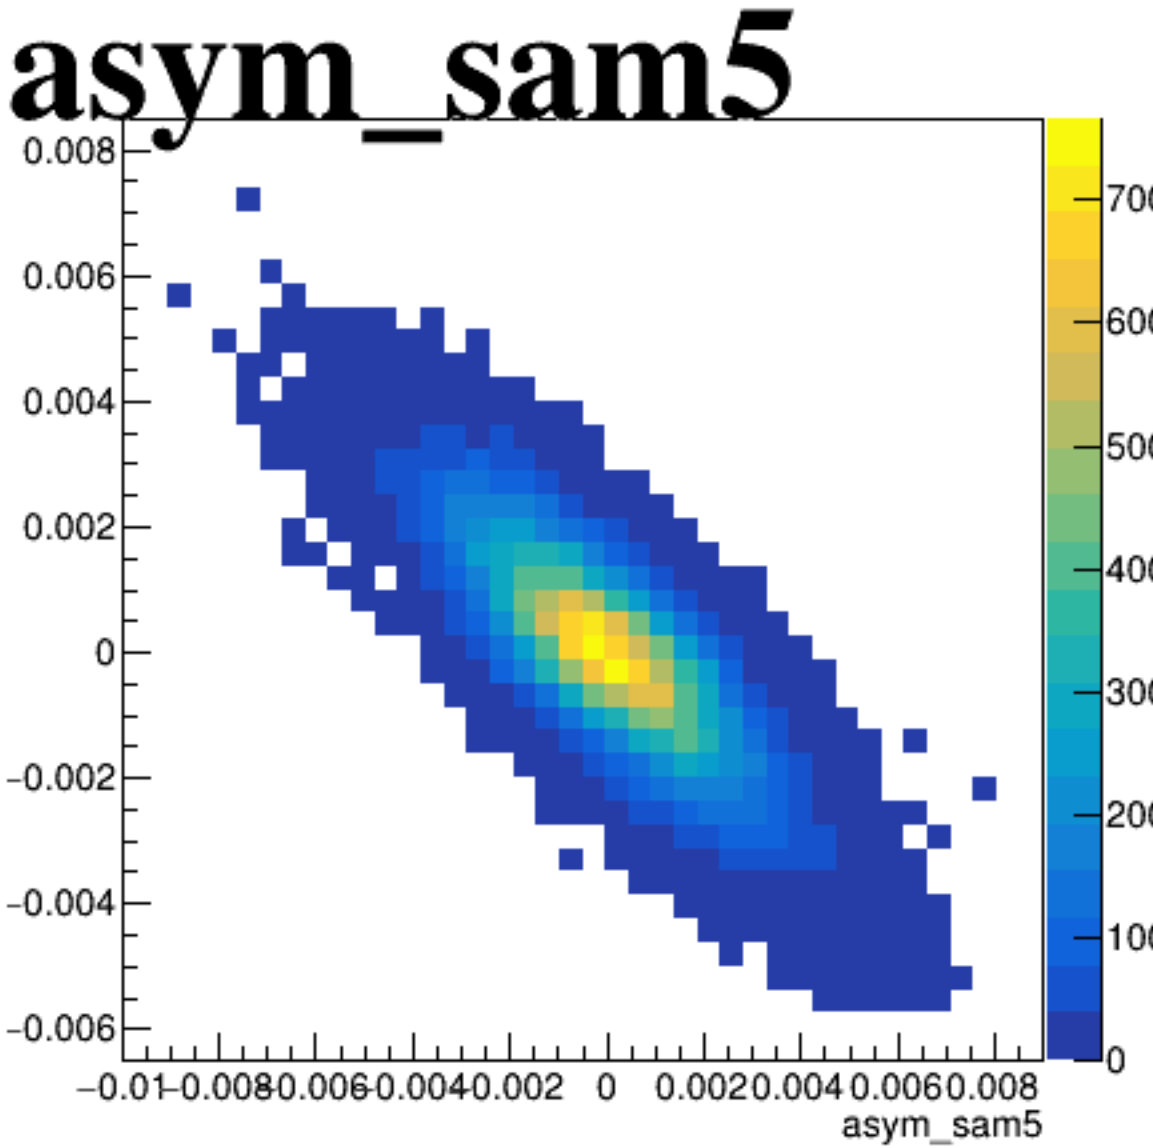

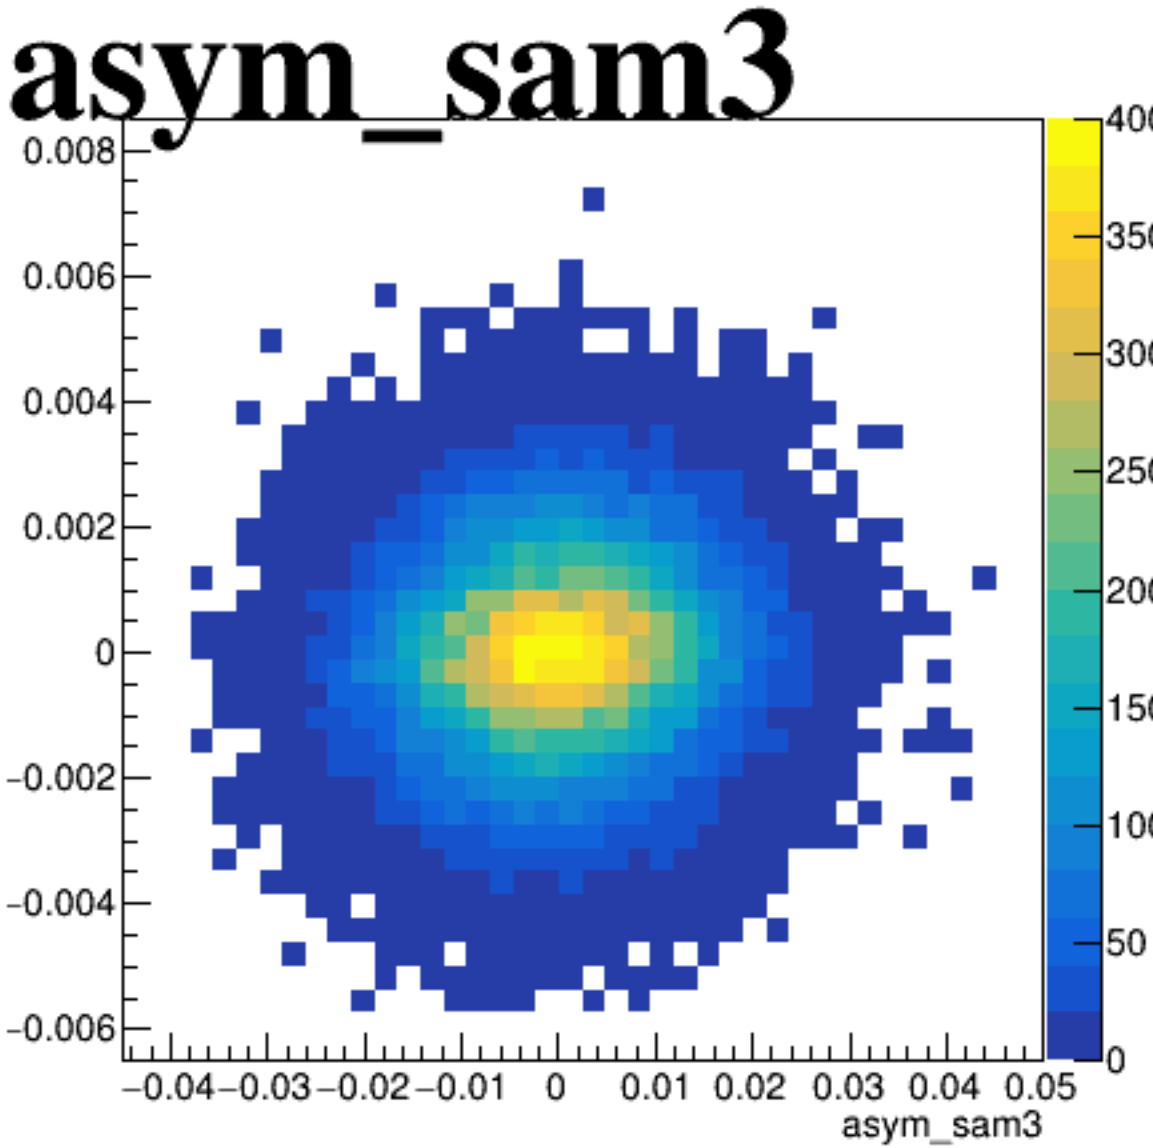

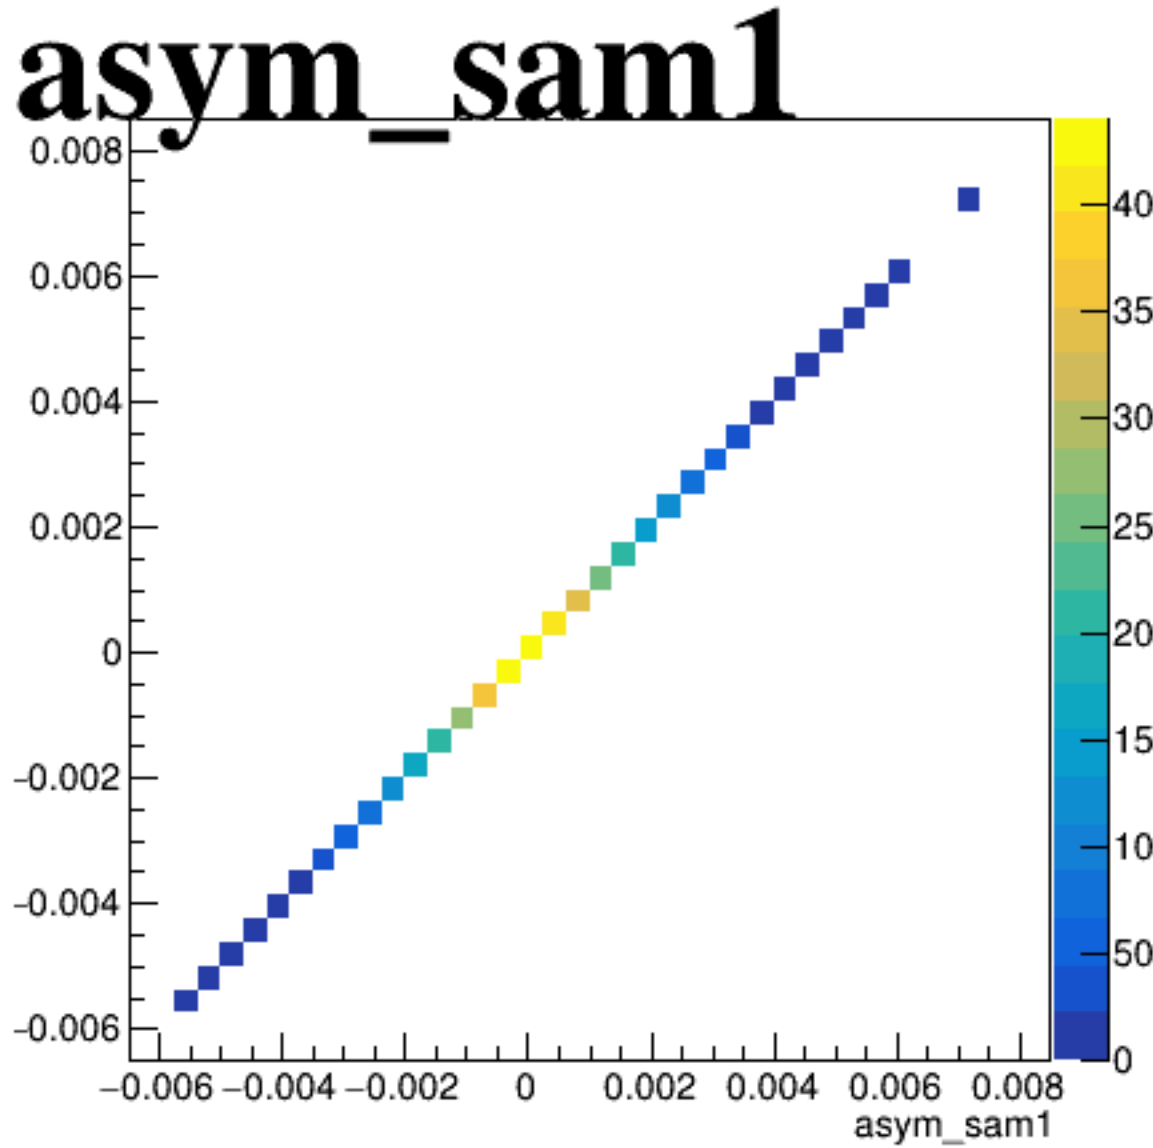

asym_sam2

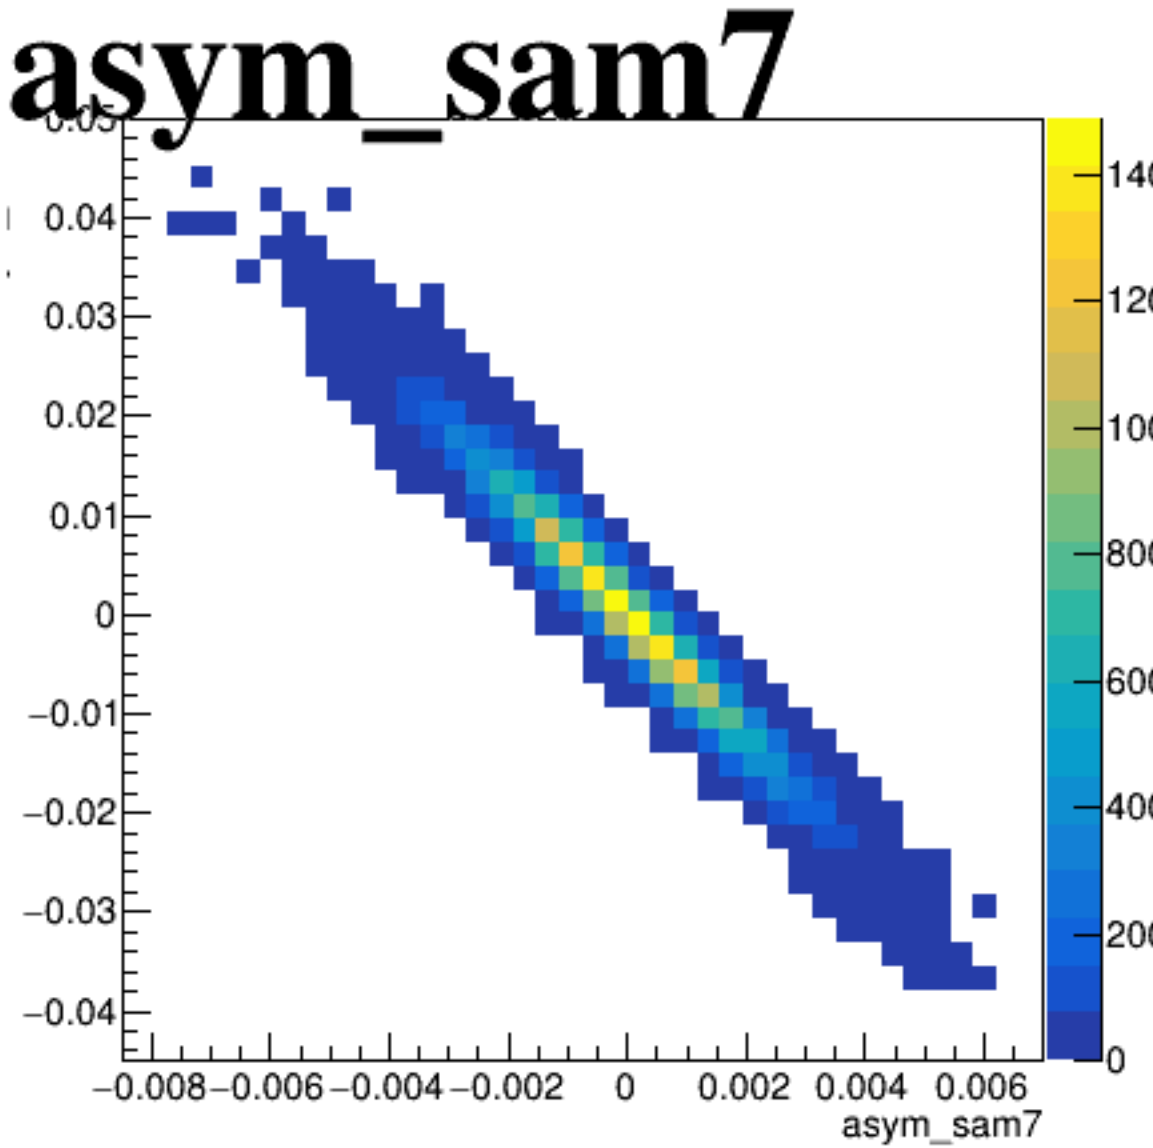

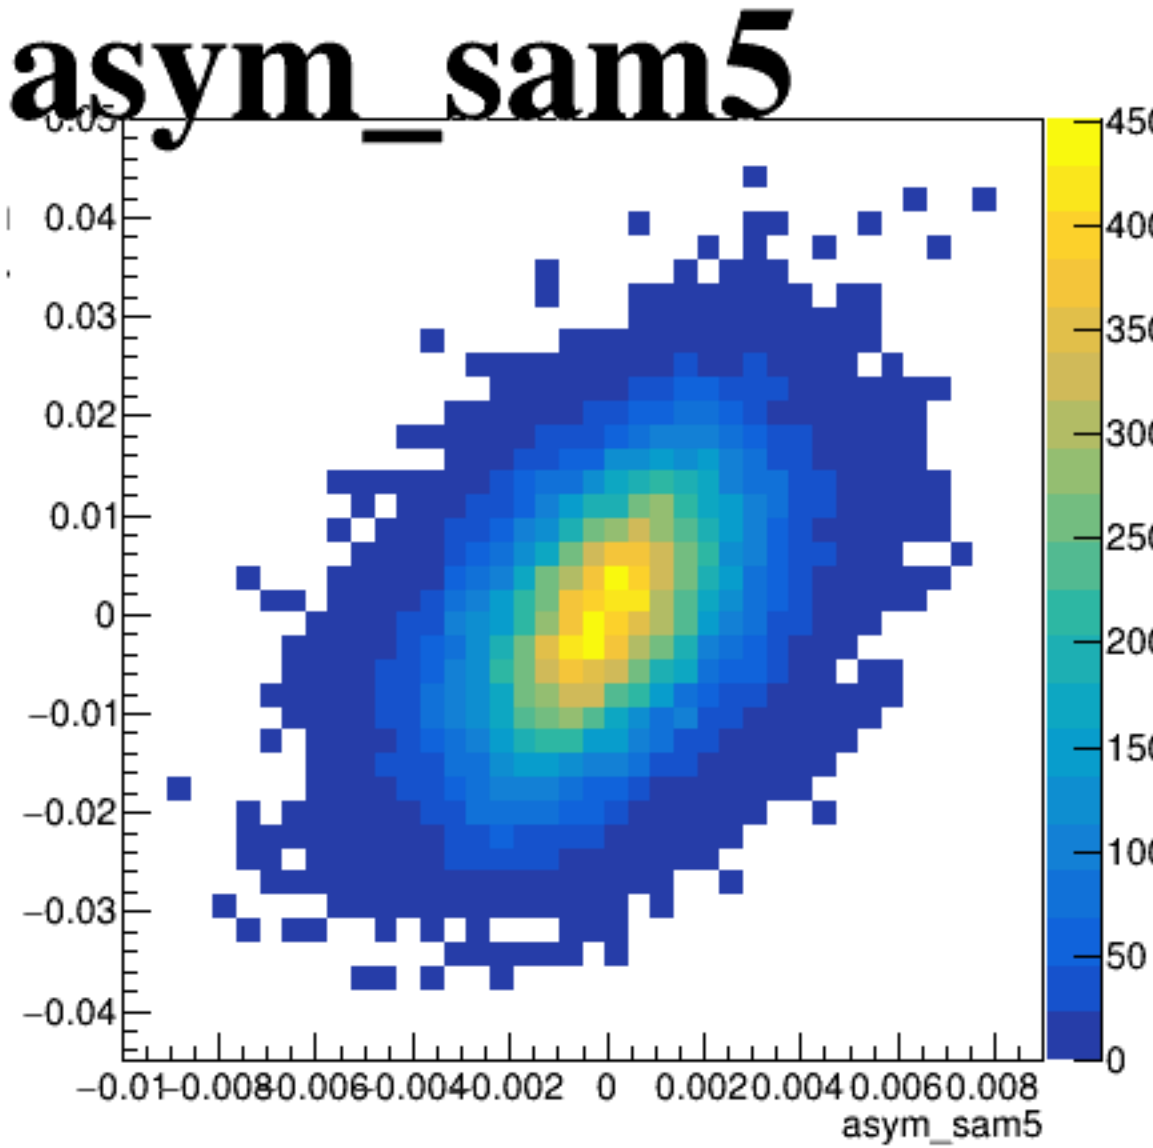

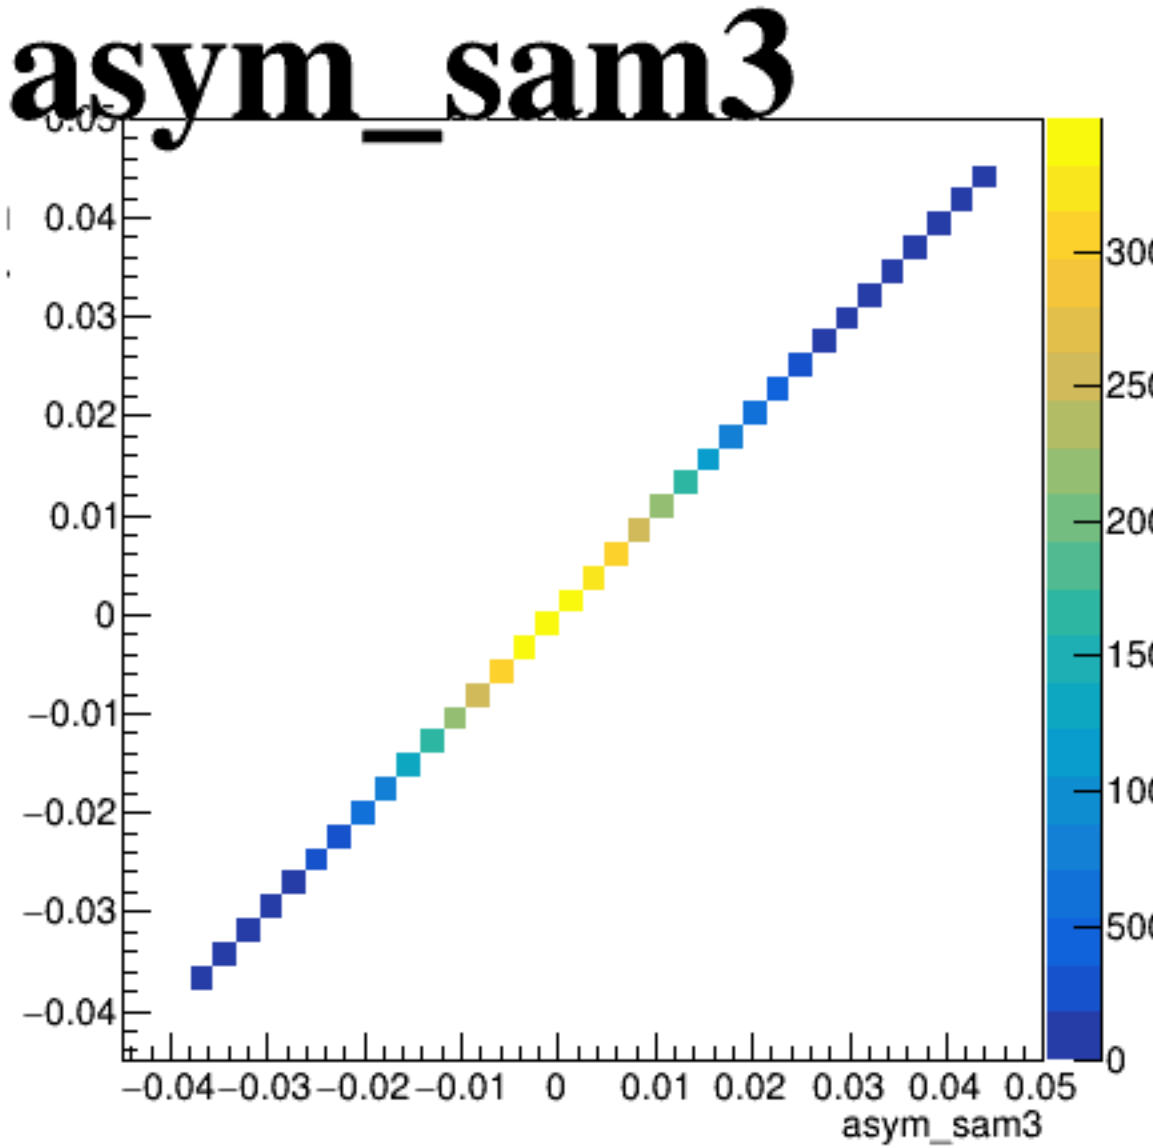

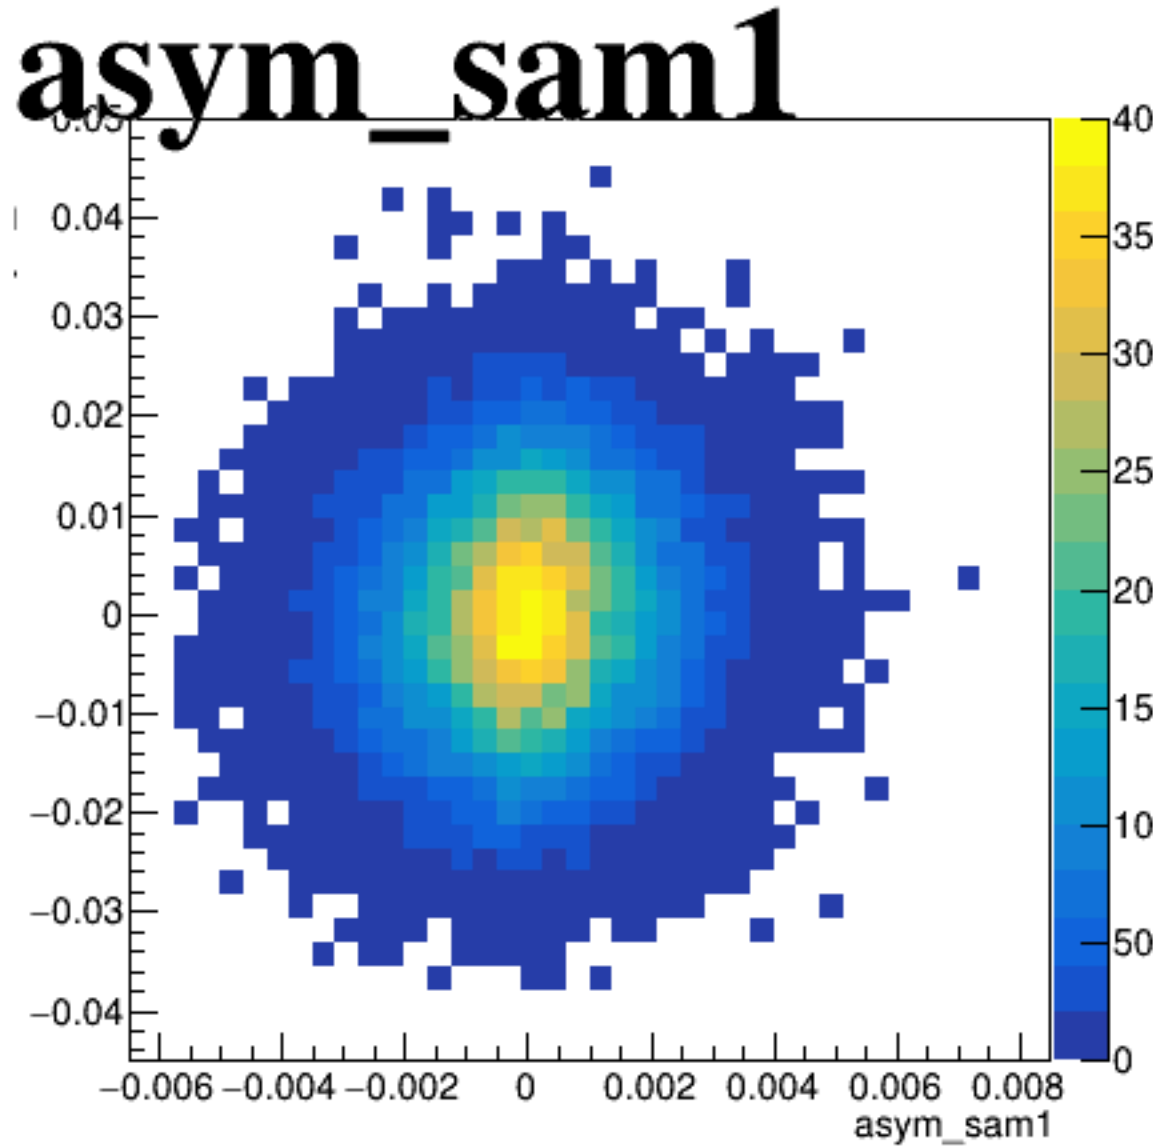

A scatter plot showing the relationship between two variables, `asym_sam1` (x-axis) and `asym_sam2` (y-axis). The plot displays a dense cloud of points, indicating a strong positive correlation. The x-axis ranges from -0.03 to 0.03, and the y-axis ranges from -0.01 to 0.01. The data points are concentrated along a diagonal line, suggesting that the two variables are highly similar.
