asym_dsr

A scatter plot titled "asym_dsr" showing a dense cloud of points. The x-axis is labeled "asym_dsr" and ranges from -0.002 to 0.002. The y-axis ranges from -0.002 to 0.002. The points are concentrated in a central region, forming an elongated, somewhat elliptical shape centered at the origin (0,0).

A scatter plot showing the relationship between two variables, both labeled 'asym_dsr'. The plot displays a dense, roughly circular cloud of points centered at the origin (0,0). The axes range from approximately -0.002 to 0.002, with major tick marks every 0.001. The density of points is highest near the center and decreases towards the edges of the plot.
