asym_dsr

A scatter plot titled "asym_dsr" showing a dense cloud of points centered around (0,0). The x-axis is labeled "asym_dsr" and ranges from -0.002 to 0.002. The y-axis ranges from -0.003 to 0.002.

The figure is a scatter plot titled "asym_dsr". Both the x-axis and y-axis are labeled "asym_dsr". The x-axis ranges from -0.002 to 0.002 with major ticks every 0.0005. The y-axis ranges from -0.002 to 0.002 with major ticks every 0.0005. The plot contains a dense cloud of black points that form a very tight, straight line passing through the origin (0,0), indicating a perfect or near-perfect positive linear correlation between the two variables.

The plot shows a linear relationship between the variable 'asym_dsr' on both the x-axis and the y-axis. The data points are plotted as small circles, and a solid line represents the linear fit. The axes range from -0.002 to 0.002. The line passes through the origin (0,0) and has a slope of 1, indicating a perfect linear fit.
