asym_sam8

A scatter plot showing the relationship between two variables, both labeled 'asym_sam8'. The plot displays a dense, elongated cloud of points along the diagonal line where the two variables are equal, indicating a very strong positive correlation. The axes range from -0.02 to 0.02 on the x-axis and -0.04 to 0.04 on the y-axis.

The figure is a scatter plot with the title "asym_sam8" displayed in a large, bold, black font at the top left. The plot area is enclosed in a black rectangular frame. Both the horizontal (x-axis) and vertical (y-axis) axes are labeled "asym_sam8" at their respective ends. The axes have major tick marks and labels at intervals of 0.005, ranging from -0.02 to 0.02. The x-axis labels are: -0.02, -0.015, -0.01, -0.005, 0, 0.005, 0.01, 0.015, 0.02. The y-axis labels are: -0.02, -0.015, -0.01, -0.005, 0, 0.005, 0.01, 0.015, 0.02. The data is represented by numerous small black dots. A solid black line of best fit is drawn through the data points, showing a strong positive linear correlation. The data points are most densely clustered around the origin and follow the line closely across the entire range.
