asym_sam8

The scatter plot, titled "asym_sam6", displays a positive linear relationship between the variable "asym_sam6" on both the x-axis and the y-axis. The data points are represented by small black dots, and a solid black regression line is drawn through them. The axes range from -0.015 to 0.02.

asym_sam4

Scatter plot showing a strong negative correlation between two variables. The x-axis ranges from -0.04 to 0.02, and the y-axis ranges from -0.008 to 0.012. The data points form a dense, downward-sloping line.

asym_sam3

asym_sam5

asym_sam7

A scatter plot showing the relationship between two variables, both labeled 'asym_sam7'. The x-axis ranges from -0.01 to 0.015 with major ticks every 0.005. The y-axis ranges from -0.08 to 0.04 with major ticks every 0.02. The data points form a dense, dark, diagonal band sloping downwards from left to right, indicating a strong negative linear correlation. The band is centered around the line y = -x.

A scatter plot showing the relationship between two variables, both labeled 'asym_sam7'. The plot displays a perfect linear relationship, with data points forming a straight line passing through the origin (0,0). The x-axis ranges from -0.01 to 0.015, and the y-axis ranges from -0.01 to 0.015. The title of the plot is 'asym_sam7'.
