The figure consists of five scatter plots arranged horizontally. Each plot shows a dense, roughly circular cloud of points centered at the origin (0,0). The y-axis for all plots ranges from -1500 to 1500. The x-axis for each plot is labeled with the difference between two coordinates: **diff_bpm4aX**, **diff_bpm4aY**, **diff_bpm4eX**, **diff_bpm4eY**, and **diff_bpmE**. The x-axis ranges vary: **diff_bpm4aX** and **diff_bpm4aY** range from -8 to 8; **diff_bpm4eX** and **diff_bpm4eY** range from -15 to 15; and **diff_bpmE** ranges from -40 to 40. The plots show that the differences between BPM4a and BPM4e are generally smaller than the difference between BPM4e and BPM5.
