Figure 1 consists of five scatter plots arranged horizontally, each showing the distribution of beam position monitors (BPMs) for a specific diffraction order. The plots are titled 'diff_bpm4aX', 'diff_bpm4aY', 'diff_bpm4eX', 'diff_bpm4eY', and 'diff_bpmE'. Each plot has a y-axis labeled 'diff_bpm' and an x-axis labeled 'diff_bpm/um'. The distributions are centered around (0,0) and show a dense cluster of points, indicating a high concentration of BPMs in the central region.
