The figure consists of five scatter plots arranged horizontally, each showing the difference in BPM (diff_bpm) for a specific parameter. The y-axis for all plots ranges from -8000 to 8000. The x-axis for each plot represents the difference in BPM for a specific parameter, with labels: diff_bpm4aX/um, diff_bpm4aY/um, diff_bpm4eX/um, diff_bpm4eY/um, and diff_bpmE/um. The plots show a dense cloud of points centered around zero, indicating that the differences are small and randomly distributed.
