asym_sam8

The scatter plot, titled "asym_sam8", displays the relationship between two variables, both labeled "asym sam8". The x-axis ranges from -0.01 to 0.008, and the y-axis ranges from -0.02 to 0.03. The data points form a dense, elongated cloud with a clear negative correlation, indicating that as the x-value increases, the y-value tends to decrease. The points are most concentrated along the diagonal line where y = x.

asym_sam8

A scatter plot showing the relationship between two variables, both labeled 'asym_sam8'. The x-axis and y-axis both range from -0.01 to 0.008, with major tick marks every 0.002. The data points form a perfectly straight line passing through the origin (0,0), indicating a perfect linear relationship. The plot is titled 'asym_sam8' in a large, bold, black font at the top left.
