The figure displays five scatter plots arranged horizontally, each showing the distribution of a different variable. The plots are titled **diff_bpm4aX**, **diff_bpm4aY**, **diff_bpm4eX**, **diff_bpm4eY**, and **diff_bpmE**. Each plot has a y-axis ranging from -1000 to 1000 and an x-axis ranging from -6 to 6, -10 to 10, -30 to 30, -10 to 10, and -30 to 30, respectively. The data points are densely packed in a circular pattern around the origin, indicating a Gaussian-like distribution.
