asym_sam7

The figure is a scatter plot titled "asym_sam8". The x-axis is labeled "asym_sam8" and ranges from -0.01 to 0.015. The y-axis is unlabeled but also ranges from -0.01 to 0.015. The data points are colored based on a scale from 0 to 25, with 0 being dark blue and 25 being yellow. The points form a strong positive linear correlation, following a diagonal line from the bottom-left to the top-right. The color of the points increases as they move away from the origin along this diagonal.

asym_sam2

asym_sam4

asym_sam6

asym_sam8

A scatter plot titled "asym_sam8" showing a dense cloud of points centered around (0,0). The x-axis is labeled "asym_sam8" and ranges from -0.01 to 0.015. The y-axis ranges from -0.05 to 0.04.

A scatter plot showing the relationship between two variables, both labeled 'asym_sam8'. The plot is a square with both axes ranging from -0.01 to 0.015. The data points are densely clustered around the origin (0,0), forming a roughly circular cloud. The axes are labeled 'asym_sam8' at the bottom right. The title 'asym_sam8' is written in a large, bold, black font at the top left of the plot area.
